

An aerial photograph showing a severe flood in a suburban or semi-rural area. The floodwaters are a murky brown color and have inundated almost all the ground-level space. In the upper left, there are several houses with red and grey roofs. In the center, a large white building with a flat roof is partially submerged. To its right, a long, low commercial building with a grey roof is also in the water. Various trees and smaller structures are scattered throughout the flooded landscape. The overall scene depicts significant property damage and displacement.
